

VJ Psyberpixie - VJing at Ultra Music Festival

If you've been to some of the underground electronic music events around Miami you've probably seen some kick ass visual effects mixed by VJ Psyberpixie. From shooting videos to editing to VJing, she's all about the visual experience. Psyberpixie has VJ'd for some of electronic music's most well known DJ's. Working with artists such as Grooverider, Goldie, Donald Glaude, Bad Boy Bill, and many more - Psyberpixie has become a well respected visual artist in the underground electronic music scene.

She will be performing for the third time at Ultra Music Festival on March 25th, 2006 during the Winter Music Conference in Miami. Psyberpixie will be sure to keep the massive crowd in a trance with her visual mixing - catch her on the Beatport Stage and the VIP Stage.

For more info about Psyberpixie and other collaborating artists visit [Psybervision](#).

Also, check out [Ultra Music Festival](#) for more info on the line up and tickets to the show.
